Project Deats

- What problem(s) are we trying to solve?
 - To upgrade the Grading Calculator for the Academic Transition Program in University Of Regina.
- What gap are we filling?
 - To have a proper and reliable calculator that is catered to their needs and requirements.
- What innovation are we creating?
 - A web page that will act as a tool to help students keep track of their grades as well as plan out their classes so that they don't end up in the same place again.

Project partial
demo

Group reflection

- Do we feel we are on track?
 - Yes, Kind off
- Do we feel there are barriers to we success (if any)?
 - Needing to have Luanna and Jaqueline's approval in all the steps that we take.
 - Needing the UofR IT Department's approval for a server space
 - Using a new programming language

Questions/Answers
